□ National Consortium for DOT Required Random Drug Testing Program:		
□ 9 employees or less	\$50 One-Time Setup	\$100 Yearly
□ 10 - 19 employees	\$100 One-Time Setup	\$150 Yearly
□ 20 - 49 employees	\$150 One-Time Setup	\$200 Yearly

All CDL Employees must be DOT Drug Tested at the start of the National Consortium Program. This is \$60 per employee and is in addition to above fees. If you are transforming from another consortium Re-testing existing employees can often be waived.

□ Non-DOT Drug Free Workplace Program: (Free if Also in DOT Consortium Program)		
□ 9 employees or less	\$50 One-Time Setup	\$75 Yearly
□ 10 - 19 employees	\$75 One-Time Setup	\$100 Yearly
□ 20 - 49 employees	\$100 One-Time Setup	\$150 Yearly

- A) All Existing Employees can be Drug Tested at the start of your program and then all new hires can be tested with a random testing of 10% to 50% of employees yearly.
- B) Only New Hires can be tested as long as the program is performed on all new hires and the existing employees can be grand fathered in. Random drug testing can be added into this program, but it must include all employees in the random drug pool.

Drug free workplace testing can be done for:

- Pre-Employment
  - Random
  - Reasonable Suspicion
  - Post-Accident
  - Return to Duty
  - Follow Up
- 

### **A Note About Pre-Employment Testing:**

1. Pre-employment functional exams can help to keep your company from unwillingly hiring high-risk employees due to prior back or neck injuries, prior workers comp claims, inability to perform functions and/ or physical demands required of the job, limited or abnormal ranges of motion, positive findings indicating potential disc or nerve injury on orthopedic evaluation, signs or symptoms of Carpal Tunnel Syndrome.
2. Pre-employment drug testing can get rid of troubled employees before they start.
3. Likewise, Pre-employment background checks can help your business ward off criminals and bad drivers. If you employ drivers, this could be indispensable to make sure you don't hire a bad employee to drive your fleet vehicle.
